

VINTAGE YAMAHA FG FRET SPECIFICATIONS AND REPLACEMENT OPTIONS

Manufacturer	Years used	Crown Width	Crown Height	Tang Width	Tang Studs					Notes
YAMAHA	1966-68, 1971 & UP	0.079	0.040	0.018	0.034					Fret tangs are crushed on the bottom, no protrusions on the sides.

The measured Yamaha Crown Height is based on an untouched fret from near the end of the fretboard. If you're replacing somewhere in the first 12 frets opt for the shorter Crown Height (0.037") frets. Use the higher frets (0.043") for full refrets. Most guitars have had the fretboard leveled, either at the factory or later in life. Since many times the frets are very low and flat, when doing a partial refret use a SMALL radius fret file to attempt to get a crown on them after levelling.

Manufacturer	Part Number	Material	Crown Width	Crown Height	Tang Width	Tang Studs	Vendor	Part Number	Price	Length	Notes
LMI	FW74	18% Nickel Silver	0.079	0.043	0.020	0.032	LMI	FW74	\$6.01	4 feet	\$4.63 per 4 feet qty 3 or more. Can be used for a complete refret. With free shipping the price is right. Using for a partial refret will require a lot of filing. And you'll need to pre-radius the wire yourself.
LMI	FW74GOLD	Gold EVO	0.080	0.043	0.020	0.032	LMI	FW74GOLD	\$10.68	4 feet	Harder than Nickel Silver, not as hard as Stainless Steel.
LMI	FW9666	Gold EVO	0.080	0.037	0.019	0.032	LMI	FW9666	\$9.41	4 feet	Harder than Nickel Silver, not as hard as Stainless Steel.
LMI	FW5574	Stainless Steel	0.080	0.043	0.020	0.032	LMI	FW5574	\$8.55	4 feet

Stew Mac	147		0.080	0.037	0.020		Stew Mac	147	\$4.31	2 feet	Flat length. (2) lengths will be needed for a full refret.

Replacing 3 or 4 frets would probably be OK, but refretting an entire guitar with the interference fit will probably cause the neck to back bow.

Manufacturer's recommend a .023" slot for .020" tang wire. That would require a fret slot saw to open every slot to have a .003" clearance.

Stew Mac fret saw \$48.63.	https://www.stewmac.com/Luthier_Tools/Types_of_Tools/Saws/Fret_Saw.html	Stew Mac shipping is \$10, unless you pay \$50 for the StewMax program, that gets you additional discounts and free shipping for 1 year. A great deal if you are planning on buying from them frequently or often need inexpensive small parts.
LMI fret saw \$34.27	https://www.lmii.com/fretting-tools/2695-fret-saw-beech-handle.html	LMI has free Standard shipping anywhere is the continental US.
Phil. Luthier Tools fret saw \$38.95.	https://www.philadelphialuthiertools.com/luthier-tools/saws/japanese-fret-slot-saw-57mm-width-cut/	Shipping is \$3.34 First Class mail, or \$7-\$8 Priority mail.

Manufacturer	Years Used	Crown Width	Crown Height	Tang Width	Tang Studs	Vendor	Part Number	Price	Length	Notes
YAMAHA	1969 & 1970	0.079	0.035	0.028	0.045					Fret tangs have triangle shaped dimples on the sides and are slightly crushed on the bottom.

The measured Yamaha Crown Height is based on an untouched fret from near the end of the fretboard. Most guitars have had the fretboard leveled, either at the factory or later in life. Since many times the frets are very low and flat, when doing a partial refret use a WIDE fret file to attempt to get a crown on them after levelling. Obviously there aren't many replacement choices for this wide tang fret. NONE of these choices are pre-radiused.

.024" tang frets should be a drop into the .028" slots, but more than likely the slots are slightly tighter.

Manufacturer	Part Number	Material	Crown Width	Crown Height	Tang Width	Tang Studs	Vendor	Part Number	Price	Length	Notes
LMI	FW75	18% Nickel Silver	0.098	0.043	0.024	0.048	LMI	FW75	\$7.09	4 feet	A bit wider and higher. Not recommended.
Dunlop	6260	18% Nickel Silver	0.079	0.039	0.024	0.037	All Parts	LT-0473-000	\$5.50	2 feet	RECOMMENDED , The tang studs are smaller, but the price is right. May need to be glued in. Flat length. (2) lengths will be needed for a full refret.
Dunlop	656260	18% Nickel Silver	0.079	0.039	0.024	0.037	Amazon	B01IYJXEW4	\$20.69 + free shipping		24 frets, 2-5/8" long. Dunlop's price is \$24.32, unknown shipping.
Dunlop	656200	12% Nickel Silver	0.083	0.035	0.024	0.045	Amazon	B06XJQ2XFL	\$20.06 + free shipping over \$25		RECOMMENDED , but slightly softer material. <i>The only option with the wider tang studs.</i> 24 frets, 2-5/8" long. Dunlop's price is \$18.05, unknown shipping.
JESCAR	37080-235	18% Nickel Silver	0.080	0.037	0.0235	0.032	JESCAR	FL37080-235-NS	\$4.25	2 feet	Flat length. (2) lengths will be needed for a full refret. Not recommended, narrow tang studs.
JESCAR	37080-245	18% Nickel Silver	0.080	0.037	0.0245	0.032	JESCAR	FL37080-245-NS	\$4.25	2 feet	Flat length. (2) lengths will be needed for a full refret. Not recommended, narrow tang studs.
Stew Mac	NONE										All Stew mac fret wires have .020" tang width.
